

TPG to significantly expand its free mobile service trial

12 March 2019 - TPG has seen an amazing response to its service trial which was launched in late December 2018. The trial plan is completely free for the first 12 months and includes unlimited data, unlimited local mobile-to-mobile calls, 20 local SMS messages and 20 minutes of outgoing calls to local fixed lines each month.

The company's Executive Chairman, David Teoh, said, "Public response to our mobile trial plan has been incredible and we have received positive feedback on our coverage and network quality. Our subscribers are delighted with our simple unlimited service trial plan and fuss-free on-boarding experience."

"We are also pleased to confirm that we have achieved 99% island wide outdoor coverage and we remain committed to enhancing our mobile network coverage including in tunnels and indoor areas. Subscribers can soon look forward to service enhancements that we will be introducing as well," said Mr Teoh.

Given the strong response to the trial, TPG is expanding its service trial to 200,000 users so that more customers can experience our excellent service and network quality ahead of the full commercial launch. In support of the expanded trial, the number of SIM pickup points is now extended to four locations: Shaw Centre, Westgate, Changi City Point (starting 13 March 2019) and Jurong Point (starting 20 March 2019). New subscribers can sign up for the trial service at <https://www.tpgmobile.sg>.
